Local Items

Monday, May 25th will be observed as Victoria Day when all stores and places of business will be closed.

A meeting of the directors and members of the Chinook Agricultural Society will be held on Saturday evening, May 23, in the Phone Office. Every member is requested to attend.

Mrs. C. W. Rideout and children, who have been visiting her mother, Mrs. Fowler, of Calgary, returned on Saturday.

Geo. Hewitt returned Tuesday from Drumheller where he has been spending the past six months.

Mr. A. H. Cliphsham was in Calgary last week attending the funeral of his friend, the late Mr. C. H. Satchwell.

Mrs. A. E. Roberts and Mrs. M. L. Chapman are in Edmonton this week attending the Methodist Conference.

The Chinook Boy Scouts held a candy sale last Saturday when they realized \$8.00 as a result of their efforts. The proceeds are in aid of the camp fund.

Mr. and Mrs. H. E. Chickering of Chillmark, left on Wednesday for Nelson, B.C.

A very enjoyable evening was spent last Friday at the home of Mr. and Mrs. W. A. Hurley, when the members of the ladies card club entertained their husbands.

Church of England Service will be held in the Collingwood School next Sunday afternoon at 3 o'clock. Everybody welcome.

W. E. Cotton, of the Union Bank staff here, has been transferred to Innisfail, and left on Wednesday for that point.

Miss M. F. Sutor spent the week-end at her home in Stettler.

WEDDING BELLS

Rand—Deman

A wedding of local interest was solemnized on Saturday, May 16, at Portland, Oregon, when Blanche Clara, youngest daughter of Mr. and Mrs. I. W. Deman, of Chinook, was united in marriage to Mr. Arthur Rand, of Portland, Oregon. The Rev. Father Campbell officiating.

Mr. and Mrs. Rand will make their home in Portland, Oregon.

NARROW ESCAPE

While riding with his father on the seed drill on Wednesday, Jack, the four-year-old son of Mr. and Mrs. J. W. Shier had a narrow escape from being killed. It appears that they were turning a corner when the little fellow fell off the seat and the drill passed over him. He was rushed to Cereul where he was attended by Dr. Esler who upon examination found that he was suffering from nothing more serious than some broken teeth and a few bruises.

Chinook Cemetery Committee Meets

Improvements Authorized

A meeting of the Cemetery Committee was held in Chinook on Saturday, Messrs. J. W. Shier, W. R. Lawrence and A. McAlister representing Collingwood, Sounding Creek and Chinook respectively. An assessment of \$136.50 was levied on Collingwood M.D., and \$86.50 on Chinook village. This equalizes the investment of the three communities in the cemetery and future assessments will be proportioned equally.

A programme of improvement was ordered, fencing, tree planting, Carragana borders and a road from the south gate to centre, thence to the west exit. This will be conditional on receipt of necessary finances.

Messrs. Shier and McAlister were authorized to do all banking business, and the latter to supervise the work on the cemetery.

Chinook Ladies Aid Elect Officers

At the annual meeting of the Chinook Ladies Aid held on Wednesday, May 13, the following officers were elected: President, Mrs. A. H. Cliphsham; Vice-president, Mrs. J. Rennie; Secretary, Mrs. F. F. Tracy and Treasurer, Mrs. R. Vanhook.

Collection of Annual Agricultural Statistics

Schedules for collection of this year's areas sown to field crops and numbers of farm live stock will as usual be collected co-operatively by the Dominion and Provincial Governments through the Rural Schools. Every farmer is asked to do his part by filling up and returning the schedule. The completed schedule will be treated as absolutely confidential, and no individual returns will be divulged. These cards are to be filled in and returned not later than Saturday, June 13, 1925, to the school teacher in your district.

Union Church

There are in life some eternal tasks for men to accomplish, the result of which will live on in the world long after we have been forgotten. Our task is not a thing of the future except in its relationship to our growth and development, by which we catch a vision of larger and better things. The one law to growth is the accomplishment now of those tasks that call on our attention from day to day. What we do and what we are to-day largely determines what we will do and what we will be tomorrow. In the Christian life the man who would know God must grow into a closer and dearer relationship with Him day by day, until he can say with Paul, "I have learned in whatsoever state that I am, therewith to be content," Chinook Union Church, Sunday, May 24, at 7:30 p.m. Everybody welcome.

Cereal Golf Tournament June 3

Cereal will hold their third annual golf tournament on June 3. There will be competitions for ladies and gentlemen, and good prizes will be given for the winners of each event.

Nazarene Church

Bright Gospel Services will be held in the Chinook School next Sunday afternoon, May 24. Adult Service at 3 o'clock. Children's Service at 2:30. All are welcome. The Collingwood Service will be held at 11 a.m. instead of 3 p.m.

Order from your grocer his best tea and he'll usually send "Red Rose."

RED ROSE TEA "is good tea"

The same good tea for 30 years. Try it!

The Value Of Good Roads

It has been said, and unquestionably truthfully said, that the world has made greater material progress in the last one hundred years than in the preceding one thousand years. The last half of the nineteenth century and the first quarter of the present century has witnessed a veritable revolution in the lives of people in all civilized countries as a result of the marvellous discoveries and inventions which have marked this period. Advancements made in methods of transportation, in means of communication, in the science of medicine, in systems of education, in forms of entertainment are so manifold and far-reaching that lengthy articles of a most interesting character could be written with reference to each of them.

Each new discovery and invention now has an almost immediate effect in revealing the product of a preceding discovery to the semaphor. In former times it took a long time for a new discovery to find ready acceptance by the people as a whole, and more often than not the inventor was a man without honor or recognition by his own generation. In this age, however, new discoveries and inventions are accepted and adopted with unprecedented rapidity, regardless of the effect their adoption may have upon existing customs and organizations, and despite the fact that their adoption means "scraping" millions of dollars worth of articles and equipment now in use.

It is only necessary to point to the almost universal adoption of the automobile in the short space of two decades, and the even more amazing development of radio since the close of the Great War. The effect of one new industry on an older one is shown in the almost complete abandonment of the manufacture of carriages and buggies since the automobile came to the fore, while the popularity of radio has played havoc with the manufacture and sale of phonographs and by bringing lectures, concerts and entertainment of various kinds right into the home, having a direct effect on attendance at and the financial success of popular forms of entertainment, albeit it has had the effect of enormously widening the circle of people who can enjoy these things.

The automobile is rapidly forcing another development which is having, and is bound to have, an ever increasing influence in our modern life. This is the construction of good permanent roads. No longer is a community willing to put up with poor, ungraded highways. The automobile has taught people that a poor road is a far greater expense than is the cost of a good one. Today bad roads are the accepted sign of an unprogressive, backward community.

The creation of a comprehensive system of good roads, while not in itself spectacular, has a profound influence on the life of any province or country. Combined with the ease of transportation which the automobile provides, such roads encourage travel within one's own country, thus extending knowledge and exerting a broadening influence leading to a removal of insular prejudices. Such roads are a big factor in reducing the cost of moving the products of the farm to market centers, whether moved by horse drawn or motor driven vehicle.

The development of good roads in Canada is not only enabling Canadians to become better acquainted with their own country, but such development is year by year attracting an ever increasing number of tourists from the United States. The number of touring parties in 1924 was fifty per cent. greater than during the preceding year, and it is conservatively estimated that these 141 of States tourists expended no less than one hundred million dollars while in the Dominion, a sum which certainly yields a handsome return on the money invested in these roads.

Canada, with its wonderful scenic attractions, its bracing northern air and fine summer weather will more and more prove an attraction to the people of the United States in their desire to enjoy a real holiday away from the heat and congestion of their large cities. The automobiles makes it possible for whole families and tourist groups to come at less expense than is involved for a number of people in railway transportation, and they can enjoy liberty of movement which is not possible by rail.

All that is necessary to enormously increase this traffic is better roads and more of them. The initial cost of such highways is high, but that they are paying investments, not only in reduced costs of haulage for our own people, but through the expenditures made by tourists, is being demonstrated wherever such good road systems have been created.

Synthetic Food

Time May Come When Food Will Be Produced By Laboratory Methods

A new era in the history of mankind, when human beings will subsist entirely on food produced synthetically, is forecast by U.S. Secretary of Commerce Herbert Hoover, following a successful experiment by chemists in which sugar was made by passing light rays through formaldehyde. If sugar can be made synthetically then starch and numerous other foods probably can be produced through the same chemical process, Hoover declared. He described the sugar producing experiment as the greatest chemical discovery of the last fifty years, because of the new fields which it opens up and of the possibilities which it holds.

Scientists see the time coming, when through the increase of population, it will be necessary for man to get at least a part of his food through such laboratory production.

"DIAMOND DYE" IT

A BEAUTIFUL COLOR

Perfect, long-lasting, and fading guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Holy Land Attracts Foreign Tourists

Stores and Hotels in Palestine Reaping Considerable Profit

That Palestine is becoming increasingly attractive to the tourist, now that normal travel facilities and hotel accommodations are available, is shown by an official report for the last six months, during which 22,364 travellers came to the country.

Many of the tourists spent over two months in Palestine, retailers, hotelkeepers and souvenir dealers reaping considerable profit from them.

Nearly everybody in Jerusalem and other Palestinian towns is preparing for the winter season which promises a greater inpouring of tourists to the Holy Land than during any pre-war winter. The Jewish Information Bureau announces parties from Europe and America are more than 5,000 Jews expect to spend the coming Passover there.

Sells Large Estate

Several portions of his large estates in East Sussex have been sold by the Duke of Devonshire. He is selling the historic Benedictine Priory at Whitlington, which was founded in the reign of King Rufus. Taxation has made the holding of vast estates quite impossible for Englishmen of even the greatest wealth.—Ottawa Journal.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thorne's Salicylate Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pain in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

A British scientist estimates that 120,000,000 fish live in every square mile of the ocean.

It's an easy matter to mistreat the grief of another.

Is the real cooking milk. With the cream left in! Free Recipe Book—Write the Borden Co. Limited, Montreal.

British Policy In Palestine

Protecting the Rights of the Arabs as Well as the Jews

British policy in Palestine has been made perfectly clear, alike to the Arabs, to the Jews, and to the British public. We are going on steadily with the experiment of the "National Home for the Jews"; we are going at the same time to protect the rights and interests of the Arabs. That the Zionists know, and it is only wanton mischief-making to repeat the old charge, as the Morning Post continues to do, that the Jews' aim is to drive the Arabs out of the country. There are a few Zionist maniacs who want Palestine to be a hundred per cent. Hebrew, but they count for about as much there as do the handful of Communists here who want England to be a hundred per cent. Bolshevik. To the vast majority of sensible Jews the "National Home" means the opportunity of developing their own culture side by side with that of the Arabs. The Arabs have nothing to lose by this any more than the economic development of the Jews are introducing. The two races in honest co-operation can make a flourishing Palestinian nation, and the prime object of Great Britain, as the mandatory power, is to encourage and assist them to do that.—New Statesman.

Legislation and Labor

Cannot Lean Too Much On Legislation For Support

Much time is wasted by a large number of people in this and other countries in efforts to get by means of special statutes things which have not as yet come by any process other than that of law. Politicians say a great deal about the necessity of this or that measure and lay great stress upon the importance to the individual of some particular law, but if any man will sit down and try to think of some particular statute that has served to lighten the burden of his toil or increase his income, he will discover that he cannot recall any such measure. After a government has made provision to protect its citizens in their lives, persons and possessions, it cannot, except in a very general way, do much more for them.—New York Commercial.

Early Surgery Only Cure For Cancer

New York Doctor Has No Faith In Advertised Cures

"I am not interested in quacks and advertised cancer cures," said Dr. Frank L. Hoffman, of New York City, who addressed the Medical Health Officers' Association, Toronto, on "Cancer Problems in Canada."

The Dr. Glover treatment was mentioned, but Dr. Hoffman said he paid no attention to it.

"You cannot make me too emphatic," declared Dr. Hoffman, "that there are more cures from early surgery, and the combined employment of radium and surgery, than from any other method. Many quacks have announced new cures and have never been heard of since. Early surgery alone prevails."

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Gray's Worm-Exterminator.

Fine Desert Police Work

Mesopotamia Camel Corps Capture Robbers and Recover Stolen Property

Fine desert police work is reported from Baghdad, Mesopotamia. Robbers recently attacked a Baghdad-Beyrout motor car convoy and killed the wife of the French vice-consul at Baghdad. The Mesopotamia Camel Corps, formed originally by the British police, chased the robbers for days in the desert, and ultimately captured 20. The assassins made a full confession. The stolen property was recovered, and the prisoners were brought into Baghdad. The capture is considered excellent work on the part of the police and Camel Corps, as the robbers were arrested in the middle of the desert, 200 miles from the scene of the attack.

Pilgrim Bell Again Heard

The large pilgrim bell of the Basilica of St. Anne de Beauce, which fell from its belfry in the fire of 1921, and was damaged, was heard May 2 for the first time since it was mended. The bell was recently removed from Belgium, where it was repaired.

Annual Egg Production

It is estimated that the production of farm eggs in Canada for 1924 was 212,618,655 dozen of the value of \$50,329,439, as compared with 202,185,698 dozen of the value of \$48,770,780 in 1923.

Rule G, the railroad regulation prohibiting use of intoxicants by employees, has been amplified by the New York, New Hampshire and Hudson Railway to include narcotics.

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocristalline Acetyl Salicylic Acid, "ASA," and is well known that Aspirin means Bayer manufacture, to avoid the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Another Triumph For Prince

Has Tightened Empire Bonds By Gaining Good Will of Dutch

The unexpected warmth and enthusiasm with which the Prince of Wales has been greeted in the Dutch strongholds of South Africa as well as in the British centres is delighting both political and social circles at home.

Unquestionably the Prince has scored the greatest personal triumph of his triumphant career as Imperial ambassador. The timeliness of his visit, the skill of his personal diplomacy and the charm of his manner, have combined to make this trip one of the happiest moves in many years for the strengthening of the bonds of the empire. Official circles in London do not attempt to conceal their satisfaction and credit the recent decision of the South African Government to give Great Britain most favored nation treatment of the new tariff schemes to the better atmosphere produced by the presence of the Prince. There is not a dissenting note in the reports from South Africa, both press and official, with regard to the outstanding success of the tour.

Starts Trip Around World Without Money

Man, 35, Hopes Book Describing Travels Will Pay For Law Course

"King" Cole (named Samuel J. Cole when he came into the world at Hagerstown, Md., thirty-five years ago) recently started a penniless journey around the world, his goal being a Cornell University law degree at the age of 42.

Starting life as a newsboy, he became popularly known as "King of the American Newsboys," and still retains speciality to the profession of his youth. Since then, however, he has seen many of the sights and conversed with many of the famous men of the world. Just now his ambition is a law course as a special student in Cornell University. Hence the globe-trotting journey without cash, which is to furnish material for a book, to be dedicated to Cornell, and which he expects to furnish the wherewithal for his law education.

Guards Radium Carefully

No Chance For Theft From Prague Radiological Institute

Great ingenuity has been displayed by the Prague Radiological Institute in protecting the radium in its possession, and the method was regarded as so complete that the thirty old professor responsible for the safety of the treasure has no fear of burglars. The priceless substance, first of all, is stored in iron stoneware phials, and these in a larger glass container completely sealed by fusing the orifice. Next comes a thick-sided lead box, which is carefully locked up in a room of indestructible safe. All around the safe, a few inches apart, hang loose chains, making it impossible for anyone even to approach the safe without moving them. The slightest movement of a chain rings an alarm bell in the watchman's quarters.

Worms are encouraged by morbid conditions of the stomach and bowels and so subvert. Miller's Worm Worms will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a high-grade medicine most beneficial to the young constitution.

Unusually Polite

"Although he overcharged me, the cab driver who took me over Paris was most polite," said my friend, who had been holidaying abroad. "All Frenchmen are," we observed. "Yes; but this one got off his box and helped me to find the necessary words in my French-English dictionary, so that I might say what I thought of him."—Vancouver Province.

Keep Minard's Liniment in the House

Radio Almost Wrecked Home

Powerful Amplifiers Cause Ceiling to Fall and Walls to Split

Stale crashing and roaring through a loud speaker nearly wrecked the home of Dr. J. B. Lawrence, one of the pioneers in radio experimentation in the United States.

When the concert started the music was hardly audible on account of the static, but Dr. Lawrence connected several powerful amplifiers to the receiver, and the music rolled in with the volume of a pipe organ.

Pictures trembled on the wall, Dr. Lawrence said. Then there was an exceptionally loud crash of static. The room trembled. A warning crack and the walls of the room split open. A moment later the ceiling fell, raining a shower of plaster and tathing on the group.

Fearing an earthquake, the group rushed to the yard. From within came the stentorian voice of the announcer:

"This is station"—Chicago, "and with another crash of static more plaster fell."

Dr. Lawrence hastily disconnected the too-powerful instrument. Contractors estimated that \$1,000 damage had been done.

Young Mother Regains Health

And Now Recommends Dodd's Kidney Pills to all Similar Sufferers

Mrs. Wm. Maddix suffered from a weak back. St. Gilbert, P.E.I.—(Special)—"I am the mother of three children and after the birth of the third my back was very weak," states Mrs. Maddix, a well known resident of this place. "Later it became very painful, and last winter it got so bad that I could hardly stand. I then took four boxes of Dodd's Kidney Pills which completely relieved me. I have great confidence in them and recommend them to all my friends."

Mrs. Maddix's trouble came from the kidneys as is evidenced by the relief she got from Dodd's Kidney Pills. When the kidneys become clogged or out of order, the circulation becomes sluggish, the impurities are not strained out of the blood and the result is weakness and lack of energy all over the body. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease.

Mayo Calls Gland Treatment Humbug

Transplantation of monkey and other glands in the human body was disclaimed of any value by Dr. William J. Mayo, of Rochester, Minn., in addressing the congress of American Physicians and Surgeons at Washington. The public had been "humbugged" with impossible claims, he said.

Because homes in Hungary contain little, if any, wood, the danger from crossed electric wires is so small that insurance companies do not inspect wiring.

A new film process shows that the domestic fly can carry as high as 7,000,000 typhoid germs.

Radio Sets For Arctic

Sesquipedals of Macmillan Expedition Are Well Equipped

Two different radio sets designed to cover all possible contingencies will be used by the sesquipedals of the Macmillan Arctic expedition this summer.

One of the places will carry a standard navy aircraft spark set, with other a short wave radio set, with which remarkable long distance results already have been attained.

The third, base ship of the expedition, will be equipped with two five kilowatt transmitting sets. Through this combination the expedition expects to be able to keep in touch directly with points in Canada and the United States.

Italy Plans Flying Force

Italy will fly 2,070 land and sea battle planes under the aeronautical re-organization bill approved by the cabinet. Sixty squadrons of the air fleet will be attached to the army, 15 to the navy and 12 will be detailed to the Italian colonies. Nearly 30,000 officers and men will man the fleet, and in charge of them will be 26 generals.

Timber Trade In B.C.

British Columbia continues its rapid rate of expansion in the timber trade, according to returns compiled by the minister of lands. These figures show that the revenue of the forest branch for the month of March this year amounted to \$255,000, as compared with \$275,000 in the corresponding month last year.

E. P. Ranch Sells Sheep

Five sheep valued at \$350 from the ranch of the Prince of Wales at High River, Alberta, were recently shipped through North Portal, Sask., enroute to L. W. Cullen, Lisle, Illinois, U.S.A.

W. N. W. 1577

Try Out Amphibian Plane

Results of Test in U.S. Are Entirely Satisfactory

An amphibious aeroplane designed by Captain Charles Nungesser, French war ace, for wealthy commuters who prefer the freedom of the air to crowded automobile roads, has been tested in U.S.A. The results of the test were said to have been entirely satisfactory.

The plane has a land chassis which can be drawn up when the lander is engaged on water. It carries three passengers and a pilot, has a cruising speed of 73 miles an hour and a cruising radius of 300 miles.

Queen Victoria's Last Escapee

Miss Elizabeth Underwood Lisle, of George Street, Portman Square, who has just celebrated her 101st birthday, was a well-known figure in society in early Victorian days. She was presented at court more than 80 years ago, and tells of Princess, afterwards Queen Victoria, sliding down a staircase on a tea tray as a last escapee before her coronation.

B.C. Lumber Shipments

Lumber exports from British Columbia during the month of March aggregated \$5,177,000 board feet, more than half going into the Orient and the balance divided between the Atlantic seaboard, United Kingdom and continent, Egypt and the Antipodes. So far this year the port has moved over 70,000,000 board feet.

Vancouver As An Important Port

Vancouver is now the second port on the Pacific coast in deep-sea net tonnage handled and fourth in total net tonnage, according to figures compiled on port tonnage during 1924 by the Vancouver Merchants' Exchange.

For Aches and Pains Use Minard's Liniment

Urgent Need of Research Work To Overcome Heavy Loss To Farmers From Plant Diseases

E. S. Archibald, director of experimental farms, believes that there is urgent need of research and experimental work. Referring to the losses sustained by farmers on account of lack of knowledge in controlling various plant diseases, he is reported to have said:

"The annual losses in our field crops alone reach a staggering total. For example, grain smuts cause an annual loss of upwards of \$12,000,000, and grain rusts cause an annual loss of some \$5,000,000 to \$6,000,000. Losses from potato diseases annually total from \$2,000,000 to \$5,000,000. Crop production is low in many areas, due to insufficient knowledge of moisture control or cultural methods, or for the lack of suitable types and varieties of crops. The total amount of these losses is beyond estimation. Crops formerly grown successfully in some parts of Canada are now produced with low yields and high costs.

Production costs in nearly every field, orchard, garden or animal product, are far too high, due to low yields, inferior quality and to heavy loss from certain losses. Canada's prosperity depends largely on agriculture, and in turn agricultural prosperity depends on our ability to satisfy local markets and produce a large surplus of superior quality for export. Unless this surplus is produced at a cost per unit sufficiently low to compete with other exporting countries, then our export trade, in fact, our agricultural prosperity, is curtailed, if not doomed.

"There never was a time in Canada's history when careful investigation and experimentation, in all the many problems of production and loss, were so much needed nor offered such excellent returns.

"Agricultural experimentation and investigation are not the 'frills' added to model farms, but actually constitute the purpose and almost the entire work of these government-operated institutions."

Estimated Crop Acreage

May-Be Slightly Less Than Last Year In Prairie Provinces

Crop acreage in the western provinces this year will be slightly less than last year, according to the first weekly crop report issued by the Canadian Pacific Railway. According to preliminary figures Manitoba will sow about 2,614,000 acres this year; Saskatchewan, 8,555,183; and Alberta, 2,721,689; making a total area of 13,101,872, which compares with 11,155,905 in 1923. Saskatchewan is the only province to allow increased acreage this year. Now breaking and summerfallow in that province remain about the same as last year. Fall ploughing however, shows a considerable increase, amounting to 2,838,454, compared with 483,128 in 1923.

Dairy Export Trade

Amount of Dairy Products Exported Continue To Increase

Exports of dairy products from Canada last year continued to increase and the aggregate value rose from \$38,345,089 in 1923 to \$41,551,730 in 1924, according to a report of the federal department of agriculture. Cheese exported in 1924 amounted to 121,465,600 lbs., compared with 116,201,900 in 1923; condensed milk, 40,250,600 lbs., against 41,092,200 lbs.; butter, 22,345,839 lbs., compared with 13,173,711 lbs.; milk powder, 7,261,947 lbs., against 4,915,288; fresh cream, 3,288,823 gals., compared with 2,568,747 gals.; and casein, 57,059 lbs., against 5,910 lbs.

Saskatchewan Poultry

743 Tons of Poultry Shipped From Province Last Year

Poultry tonnage shipped in car lots in Saskatchewan during 1924 was almost double the total for 1923, according to returns furnished by the transportation branch of the bureau of statistics. In 1924 a total of 713 tons of poultry was shipped from the province, as compared with 380 tons the previous year.

Same Troubles Elsewhere

Canada's railway difficulties are not singular. Even in England with its closely knit transportation systems and its compact and crowded population, two of the most important railways are faced with the necessity of drastic economies in their operating costs. Mr. Beatty and Sir Henry Thornton don't carry all the transportation troubles of the world—Italian Chronicle.

Out of the total population of 200 at Salasburgh, Pa., 170 are 80 years of age or older.

Must Fill Prairies With British Settlers

Bishop Lloyd Says Foreign Immigration Is Much Faster

Saying that they are assured of a welcome, Bishop G. E. Lloyd, of Saskatchewan, Canada, is in London to start a campaign to get British settlers for new lands in his diocese, much of which is peopled by other nationalities. To a London Daily Mail reporter he said: "Ultimately we shall lose the three western provinces of Canada if we do not fill them with more British settlers. My diocese has agreed to pay a clergyman to represent us in London, for there must be emigration work now on the part of the church. The British stream of emigrants is too slow. It is not keeping pace with the foreign influx.

"Instead of the demoralizing dole, I would have 'test' farms maintained by dole money. A few months on these would suffice to weed out the small proportion of men who would not succeed in Canada. If fit, the average man wants no experience for a farm life."

The bishop has spent 40 years in Canada, and he says that a man from the British Isles will do well in the Dominion unless he is unfit or does not want to work.

May Take Canadian Horses

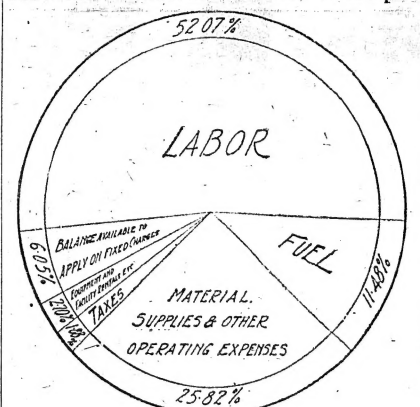

Prospect of Good Market in Germany Is Reported

With the removal of the ban on horse importations into Germany by the government of that country, there may be a market for Canadian horses, there, says the latest report of the department of trade and commerce. The class of animal wanted in Germany is of the farm type, well broken and weighing about 1,400 to 1,500 pounds. These horses sell at present for about \$90 to \$950 marks or \$195.50 to \$214 per head. The present duty on horses is \$21.54 per head for animals valued at less than 1,000 marks.

Less Fruit Grown

Canada's production of commercial fruits for the past year showed a decrease of \$3,909,512 in value, as compared with 1923, according to a statement issued by the bureau of statistics. The total value of fruits grown in 1924 was \$21,266,431, while the figures for 1923 reached \$25,175,943.

How the C.N.R. 1924 Dollar Was Spent

The full circle shown above represents the gross income dollar of the Canadian National Railways in 1924. The circle is divided into a number of segments each of which represents the proportion into which the dollar was broken up for expenditure in the directions named.

Labor	\$127,216,017.49
Fuel	28,665,471.56
Materials, supplies and other operating expenses	63,609,441.81
Taxes	4,583,592.55
Equipment and facility rentals, etc.	6,609,561.00
Balance available to apply on fixed charges	11,772,537.92
Total	\$244,265,413.55

This chart is interesting in that it is a guide to the part which the dollar of the Canadian National Railway plays in the business of the country as a whole. It is not an idle dollar. Nearly all of it remains in circulation and finds its way into every channel of industry and commerce.

As can be seen, wages paid to employees constitute, by far, the greater portion of expenditure. There are almost 100,000 employees who get their share of the company's revenues twice a month, and this money, therefore, circulates from one end of Canada to

Conditions Good In The West

SIR JOHN AIRD

President and General Manager of the Canadian Bank of Commerce, who recently made a trip through the prairie provinces, and states that he found the general state of business in the west to be on a sound basis.

Franco-Canadian Trade

Permanent Exhibition of French Products May Be Placed At Montreal

Anxious for ever greater development of Franco-Canadian trade, a number of French business leaders are favoring establishment in Montreal of a permanent exhibition of French products where Canadian buyers could examine the wares and give their orders to manufacturers' representatives. Henri Jones, president of the Chamber of Commerce Francaise de Montreal, declared on his return from Paris.

Meeting of Western Canada's Mayors

Western Canada's mayors are to meet in Edmonton on July 13, during the Edmonton summer fair, to discuss such questions as banking, credit, Oriental trade, immigration and colonization. The conference will include delegates from British Columbia, Alberta, Saskatchewan and Manitoba.

Increased Population Would Solve Many of the Problems Now Facing the Dominion

Canadian Magnesite For England

British Steel Makers Now Using Product From Canada

Still another Canadian mineral is making good in the British market. Shipments of dead-burned magnesite have recently been made from the Grenville magnesite mines to British steel makers. Due to the lowering of ocean freight charges and the improvement in exchange rates, the Canadian product is being laid down at a price to meet the competition of the Eastern European magnesite.

The shipping magnesite mines are situated in Grenville township, Argenteuil county, north of the Ottawa River, about midway between Ottawa and Montreal. Magnesite was discovered in this district in 1900, but it was not until 1909 that mining was commenced. Production was small, however, but with the shutting off of European supplies by the war, a rapid development took place. A large output of crude, caustic and dead-burned magnesite was made available, a considerable portion of which was marketed in the United States. It was used principally in the manufacture of magnesite brick and as linings for basic open hearth and steel furnaces. It is reported to have given good results; so much so that Canadian steel makers have continued to use it. The application of the higher customs tariff has, however, shut Canadian magnesite out of the United States markets.

Gradually the mineral products of Canada are working themselves into world markets and adding to Canada's foreign trade.

Winter Loss Was Small

Alberta Beekeepers Are Laying Good Foundation For Industry

Winter loss among Alberta bees has been small, according to reports received by H. T. Luther, of Lethbridge, secretary of the newly organized Alberta Beekeepers Association. At the experimental station at Lethbridge the winter loss was 3 1/2 per cent, while other members of the association report under 10 per cent. The few bees which in all cases seem to be due to the beekeepers, letting their bees go into the winter in poor condition. The Beekeepers' Association executive are studying every phase of the business in the province and are determined to lay a broad foundation for this industry in Alberta.

Exports Of Flour

Value of Flour Exported From Canada During Past Eight Months Exceeds Last Year

Exports of flour from Canada during the month of March amounted to 1,385,240 barrels, with a total value of \$10,972,554, which compares with exports of 1,337,810 barrels, valued at \$7,122,692 in March, 1924. Total shipments of wheat flour for the eight months ending with March last were 7,565,914 barrels, with a value of \$52,106,373, compared with 8,558,111 barrels, worth \$44,364,432 in the same period a year ago.

Receives Large Cattle Order

Three Thousand Head From Alberta Going to Scottish Firm

H. P. Kennedy, president of the livestock producers of Alberta, recently declared that he had received an order for 3,000 Canadian cattle to be delivered next fall to a Scottish firm, and he pointed to this as proof that Canadian cattle were in demand in the Old Country and were receiving a preference over Irish cattle from Scottish feeders. He stated that by June 27 his company will have shipped 10,000 cattle to the Old Country from Edmonton.

The Operator's Error

The United States department of agriculture has prepared a printed bulletin saying:

"The cat crop ranks third in importance. Cats traditionally constitute the banner horse feed of the world and three per cent. is used for human consumption. The cat crop is subject to several diseases, chief of which are leucis and covered scum, stem rust and crown rust.

"The trouble was that the intertype operator consistently hit the letter 'e' instead of the letter 'o' and turned a treatise on cats into cats.

Beekeepers In Manitoba

The 1,800 beekeepers in the province of Manitoba with 22,113 colonies, produced 1,202,000 pounds of honey, worth \$195,000 in 1924, according to a report issued by the provincial department of agriculture.

"We are short on population, long on taxation and legislation." That is how Sir John Aird, president and general manager of the Canadian Bank of Commerce, describes the position of Canada as reported by the Manitoba Free Press.

His remark on population, legislation and taxation came as the result of a question as to his opinion on the best solution for the railway problem with which Canada is faced. Sir John believes that an addition during the next few years of five millions to Canada's population will settle the question and that with federal and provincial governments and railways working harmoniously together it should not be impossible to reach that figure. However, he remarked a journey through Canada was convincing proof to the most pessimistic of the country's inherent stability. "No, it is certainly not going to the bottom," he said.

"General conditions in Western Canada, Sir John observed, are perhaps a little better than in the east, with the exception of Ontario. The manufacturing sections are slightly depressed, although the retail business is now showing improvement. The depression in manufacturing was due more to over development during and immediately following the war than any other cause and an increase in a producing and consuming population would speedily put the manufacturing on a substantial basis.

World Competed For Order

Soviet Russia Paid Canadian Firm \$16,000,000 For Flour

A world's record flour order was completed at Montreal with the loading of the last of 34 vessels for Soviet Russia. The order was filled by a Canadian mill and was the equivalent of 155 trainloads.

The order was made through the New York agency of the Soviet Government. The completion of the gigantic order is said to have necessitated the changing of hands of over \$16,000,000, which was paid over to the Canadian firm.

One of the Maple Leaf Company's mills, situated at Medicine Hat, Brandon, Kenora, Port Colborne, Thorold, West Toronto and Peterborough, have been kept busy night and day since the grinding of the order commenced, and in view of the urgency with which it was required, other mills at Moose Jay, St. Boniface, Midland, Stratford, St. Thomas and Montreal were also called into service.

Canada won the order in competition with the world.

Would Out British Tonnage

Deliberate Attempt By German Lines Says C.P.R. Official

"That conditions approximating 'rate war' prevailed among the steamship lines carrying traffic westbound from European ports to Canada and the United States, was stated at Ottawa before the special parliamentary committee on ocean rates by W. T. Marlow, general foreign freight agent of the Canadian Pacific Railway.

Mr. Marlow expressed the opinion that "there is a deliberate attempt on the part of the German lines to try and out British tonnage."

Saskatchewan Butter

Considerable Increase in Production Shown by Figures Presented

Creamery butter production in Saskatchewan during March amounted to 611,823 pounds, as compared with 612,320 pounds in the previous month, according to a report issued by the provincial dairy commissioner. Production for the first quarter of the year amounted to 1,917,551 lbs., compared with 1,583,339 lbs. in the corresponding quarter of the previous year, an increase of 123 per cent.

Thought He Was Working

There was no one at the table but the landlady and Mr. Skaggs, and the latter was doing his best to eat the piece of steak on his plate.

"Mr. Skaggs," said the landlady, firmly, "when are you going to pay your bill?"

"Madam!" responded Mr. Skaggs, in a tone of surprise.

"When are you going to pay your bill?"

"I didn't know I had to," he said, as he looked reproachfully at the steak.

"I thought it was working it out."

If a rich man tells you that the greatest happiness is found in poverty, remind him of what David said in his haste.

Many scientists believe that fish can hear.

A Romance of the Spanish Main CAPTAIN BLOOD by RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan
In the title role, is an adaptation of this thrilling novel.

CHAPTER XX. Hostages

Peter Blood made his way through the house to the wide piazza behind it. In whose shade were the palms and his Lord Julian Wade.

"I have sent for you, Captain Blood, because of certain news that has reached me," the Deputy Governor said. "I am informed that yesterday evening a frigate left the harbor having on board your associate Wolverstone and a hundred men, of the hundred and fifty that were serving under you. His lordship and I shall be glad to have your explanation of how you came to permit that departure."

"Permit?" quoth Blood. "I order it."

"Swords! Whether has Wolverstone gone?"

"To Tortuga. He's gone with a message to the officers commanding the other four ships of the fleet that is availing me there, telling them what's happened and why they are no longer to expect me."

"You hear that, my lord? Deliberately he has let Wolverstone loose upon the sea again—Wolverstone, the worst of all that gang of pirates after himself. It's treason! It's matter for a court-martial."

"Will you cease your blather of treason and court-martials? Blood put on his hat, and sat down unbidden. "I have sent Wolverstone to Tortuga and the rest of my men to Tortuga or sail out of the Caribbean Sea. That's what I've done."

Colonel Bishop belittled his protest, but Lord Julian was more conciliatory.

"It is possible," Lord Julian admitted, "that my Lord Sunderland will be satisfied, provided that the solution is as you promise. Speaking on behalf of my Lord Sunderland, I am content to await the result of your expertment."

"Are you, indeed?" Bishop roared. "Well, then, I am not."

"Then I'll be wishing you but a very good day," Blood swept off his feathered hat, and made them a leg very elegantly.

"Before you go," said Bishop, "and to save you from any idle rashness, I'll tell you that the Harbor-Master and the Commandant have their orders. You don't leave Port Royal, my fine fellows here. Damn, I mean to provide you with permanent moorings here, in Execution Dock. You do not leave this house. He took a step in the direction of the doorway, and raised his voice. "Do there . . ." he was beginning to call,

Captain Blood's right hand had re-emerged from the breast of his doublet, bringing with it a long pistol with silver mountings richly chased, which he leveled within a foot of the Deputy-Governor's head.

"Don't stir from where you are, my lord, or there may be an accident."

And my lord, who had been moving to Bishop's assistance, stood instantly arrested. The Deputy-Governor was waving on unsteadily. Peter Blood considered him with a grimace that increased his panic.

"Now write unless you prefer the yard-arm."

They passed out of the gates unchallenged, and so came to the mole where the cork-boat from the Arabela was waiting. They took their places side by side in the stern sheets, and were pulled away together, always very close and friendly, to the great red ship where Jeremy Pitt so unobtrusively awaited news.

Colonel Bishop stood in the waist, his great face blanched to the color of clay, his mouth loose, almost afraid to look at the sturdy ruffians who lounged about the shot-rack on the main hatch.

"Now, don't be alarming yourself, Colonel, darling," Blood said. "We'll talk the matter over while we are dining, for I trust ye'll not refuse to honor my table by your company."

He led away the will-less, cowed but to the great cabin.

"May I ask what . . . what are your intentions?" Bishop quavered.

"Ye've said his lordship made a mistake when he handed me the commission which the Secretary of State did me the honor to design for me. I'm disposed to agree with you; so I'll take to the sea again. I'll be getting back to Tortuga and my buccaners."

"My God!" groaned the Deputy-Governor. "Ye . . . ye . . . never mean that ye'll carry me to Tortuga!"

"No, no. All I want is that ye insure my safe departure from Port Royal. Ye've given certain orders to your Harbor-Master, and others to the Commandant of your pleasure fort. Ye'll be so good as to send for them both aboard here, and inform them of my presence that the Arabela is leaving this afternoon on the King's service and is to pass out unmolested. And so as to make quite sure of their obedience, they shall go a little voyage with us, themselves. Here's what you require. Now write—unless you prefer the yard-arm."

Bishop glared at him; then shrugging heavily, he took up the pen and

sat down at the table. In an unsteady hand he wrote the instructions to his officers. Blood dispatched it to the harbor, and then bade his unwilling guest to take.

"I trust, Colonel, your appetite is as stout as usual."

"The Captain fell to with a good appetite. But before he was midway through the meal came Hayton to inform him that Lord Julian Wade had just come aboard, and was asking to see him instantly."

"I was expecting him," said Blood. "Fetch him in."

Blood signaled to the servant, who was standing behind Bishop.

"Set a chair for his lordship, Hayton, send his lordship's boat ashore. Tell them he'll not be returning yet awhile."

"What's that?" cried his lordship. "Disorder me! I've mean to detain me?"

"Just to make myself and my lady here safe from Colonel Bishop's galleons. There's a note from his hand gone ashore to summon the Harbor-Master and the Commandant of the fort. Once they are aboard, I shall have all the hostages I need for our safety."

"You fool," his lordship said. "Do you dream that I came aboard your pirate ship without taking my measures?"

I informed the Commandant of the coast guard you had compelled Colonel Bishop to accompany you. Judge now whether he or the Harbor-Master will obey the summons, or whether ye'll be allowed to depart as you imagine."

"I'm sorry for that," said Blood. "But not on my own account. It's the Deputy-Governor there I'm sorry for. I've known what ye've done? Sure, now, ye've very likely hanged him."

"My God!" cried Bishop in a sudden increase of panic.

"(To be continued.)"

What the World Needs

Cry Is For Security and Stability Says British Foreign Secretary

What Britainers require today is peace, not only at home but abroad, said Austen Chamberlain, the British foreign secretary, at the annual dinner of the London chamber of commerce, at which he was the principal guest. Women attended the banquet for the first time in its history.

"The cry of the world is for security and stability," declared Mr. Chamberlain, "the passionate anxiety of the people being to get away from the horrors of yesterday, to be able to turn face on their resolutely and face with courage all difficulties and try to solve the problems of the future."

Mr. Chamberlain argued that the most profound pacifists were apt to be also the most aggressive people.

To Tag Whales

English Expedition to Study Habits of Giant Marine Mammals

An expedition is being organized in England for the purpose, among others, of shooting small darts bearing identity discs into the backs of whales in order that man may learn something more about the marine giants.

Leut. Stenhouse is undertaking the expedition for the colonial office. He will sail in June for the Falkland Islands, off the South American coast, and whenever possible a whale will be tagged with an identity disc. Among the questions the expedition hopes to answer are: Are whales polygamous? What is their birth rate? What do they eat? How far do they travel? The discs will provide an answer to the last question.

Prince Of Wales' Umbrella

Gorgeous Silk One Made Especially For His Use In Africa

Kings of ancient Egypt used the umbrella as an emblem of sovereignty. In West Africa it is still a symbol of royalty, and a gathering of umbrellas is a magnificent affair. The umbrella the Prince of Wales has been using on the Gold Coast was specially made for him in England to the order of the King of Ashm, the Hon. Nana Ofori Atta, O.B.E., an enlightened monarch. It is in rich silk, in the Ashm colors—blue, red and gold—and on top the state emblem of Eastern Ashm—a leopard, stool, crown and sword—is carried out in gold.

Not So Blind

A travelling man, after vainly trying to make clear an argument to a fellow passenger, finally yelled, somewhat angrily: "Why, it's as plain as A B C."

"That may be," said the other, "but I'm D F F."

Unlike the Chinese who prefer malchidrine, the native African welcomes a girl because her work at home is valuable and she has a cash price, when she comes of marriageable age, in cattle, goats, or sheep.

Whether or not contentment is better than riches, we know that they make a first-rate combination.

After Every Meal

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house. 881

WIGLEYS

Chemist Often Assists In Detecting Forgery

Falsely by Paper and Ink Used

The expert in handwriting is generally given the chief honor in the detection of forgery, but actually the skill of this expert is applicable in a few cases only, and even in these his evidence is unreliable outside certain narrow limits, writes R. C. Nicholls in an English paper.

The skill of the chemist, on the other hand, is capable of far wider application, and his evidence is definitely reliable, being the result of reasoning based on scientific facts.

When a suspected document is alleged to be old, the composition of the paper sometimes offers very complete evidence of forgery. For instance, it is obvious that a document is forged when it is written on paper made from wood pulp and yet bears a date long before pulp was used for making paper.

In the Mexican case documents bearing dates from 1719 to 1722 brought forward in support of a pecuniary claim, were alleged to have been altered.

The chemist, consulted proved that the ink used for making the alleged alterations was different in composition from that used for the remainder of the document. And this was not all, for the chemist was also able to show that the alterations had been made with a steel pen. And as steel pens were not invented until 1808, 90 years after the date of the document, forgery was evident.

Bad News For Fat People

Toronto Doctor Says That Dieting Is Useless For Many Cases

That almost one-third of the fat people can never reduce by dieting, was the statement of Dr. H. C. Wales, of Toronto, in an address on "Obesity and the Endocrines," before the forty-fifth annual meeting of the Ontario Medical Association. He explained that their obesity was due to some defect in the endocrine glands. "They have to have special treatment," he said. "We are specially interested in children, because they are the ones with which we get the best results."

The fat that refuses to be "reduced" may be due to some deficiency of the various ductless glands, and Dr. Wales foresees the day when these glands will be extracted for use, just as insulin has been obtained from the pancreas.

The Way Out

"I know of no easy way out of this crisis. There is but one way—along the path of clean, unselfish living, of determination and endeavor. That was the spirit that saved us in the great crisis and that spirit alone will enable us to emerge triumphantly from the crisis in which we find ourselves today."—R. A. Hoey, Springfield, Manitoba.

Workers in Norway and Sweden are demanding increased wages, asserting that the cost of living has increased.

A recently invented potato harvester digs, picks up and loads the potatoes into a wagon at one operation.

In the seventeenth century leather coins were used in parts of Northern Europe.

MINARD'S Relieved His Rheumatism

Here is one of many letters testifying to the relief Minard's gives in cases of rheumatism. "I have been relieved of rheumatism by your liniment. I thought I would never be free from this malady and I tried many remedies, but Minard's was the only one which gave me relief."

ALPHONSE RICHARD, St. Samuel, P. Q.

Minard's is also splendid for stiffness of the joints, sprains, bruises, etc.

MINARD'S LINIMENT

Has Had Romantic Career

W. H. Nurey at Eighty is Writing Autobiography

Walter H. Nurey, who has just passed the eightieth milestone of his romantic and checkered career, and who is known from ocean to ocean in Canada, is now completing an autobiography called "The Vicissitudes of a Vagrant."

Few men have had so unusual a career as Nurey. He was in India and China before coming to Canada at the age of 20. He turned near Hamilton, and was a banker in Toronto.

He roamed the plains with the bison, portaged the rapids of the Mackenzie with the early fur traders, was deputy minister of agriculture in the first Manitoba Government, mixed in Mexican and Mexican revolutions, has written books and edited newspapers, has been publisher, manufacturer and company promoter, and was a friend of Sir William Van Horne, Lord Strathcona and Lord Dufferin.

Nurey has just recovered from a severe illness. "When I look back over my life, the sights and sounds I have seen are vivid in my memory, the gray dawn breaking in camps on the northern trails, the crunch of heels in the snow, and the yelps of huskies harassed once more to the sled. I'd like to be young again, just to live my life over."

BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised by a Nova Scotia Lady

Among the well-known and esteemed residents of Hamilton, N.S., is Mrs. Amanda Woodworth. Some four years ago Mrs. Woodworth had the misfortune to lose her husband, and as a result of caring for him during his illness, and attending to farm duties, she became terribly run-down. Mrs. Woodworth says she felt as though her blood had turned to water. The least exertion would leave her tired and breathless. She was often attacked by spells of weakness that left her almost speechless, and frequently suffered from dizziness. Her medicines she took did not help her, and she almost despaired of gaining her health. In this condition she one day read in a newspaper of a case very similar to her own, in which health was restored through the use of Dr. Williams' Pink Pills. "I made her decide to give these pills a trial. After using a few boxes she found the pills were helping her, and she continued to use them until her time health and vitality were restored. Now Mrs. Woodworth looks after a small farm of fifteen acres, besides doing all her housework, and says she never felt better or more energetic in her life. She gives credit for her present good health to Dr. Williams' Pink Pills, which she says are the best medicine she ever used, and strongly recommends the pills to all run-down people."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Why He Chose Canada

Englishman Thought What Suited Prince Was Good Enough For Him

"What was good enough for the Prince of Wales is good enough for me," was the principle that guided W. W. Hubbard, late of Staffordshire, England, in choosing Canada as the future home for himself and family.

"Yes," said Mr. Hubbard, "when a man like the Prince of Wales, who has traveled all over the world, buys a ranch in Alberta, it means that he has found Canada to be a pretty good country." The Hubbells, however, will take up farming in Manitoba.

Mrs. Hubbard also was questioned as to why Canada was selected. "Well," she said, "I had a great-uncle who lived to be 113 years old. I concluded it must be a healthy country, even though it does get cold at times."

Snakes In Ireland

Small Serpent Is Found In The Vicinity Of Dublin

Notwithstanding the legend that St. Patrick banished all the snakes from Ireland, one has been discovered in Dublin, and is now on exhibition in the national museum. It is a very small specimen, less than two feet long, and of the harmless variety. News of the find caused much comment in the press.

Snakes have occasionally been brought into Ireland from overseas, but they have never known to breed there.

Platinum From Sudbury

Finally revised statistics for 1921 on the production of platinum as reported by the Dominion Bureau of statistics at Ottawa, show that except for a small amount of five ounces, which was recovered from the British Columbia placer, the total output of 5,185 ounces, was derived from the copper-nickel ores of the Sudbury district.

Laugh a little more at your own troubles, and a little less at your neighbor's.

Royal Pair Visited Tutankhamen's Tomb

Duke and Duchess of York Took Arduous Journey Across Desert

The Duchess of York, it is said, is thinking of publishing in book form the diary which she has kept of her big game hunting trip to Kenya. Few details of the tour have been made public, but those in the know in Nairobi say that the royal pair had some remarkable escapes from the lions, elephants and buffalo. On their way from Khartoum to Cairo the Duke and Duchess made a detour to the Valley of Kings to see Tutankhamen's tomb, travelling part of the way by car and the rest on donkey-back across the desert—a somewhat arduous journey. Several times the royal couple were carried over swamps and rivers pickaback by natives.

British Suffered Most From War

And No Nation Has Made More Sacrifices For Peace

So far as Great Britain is concerned, she has already disarmed. She has drastically cut down her army. Her air force is but the shadow of the great organization which it was at the close of the war, when it was superior in strength and efficiency to that of any other nation. The British navy now takes second place in the world, whereas in point of numbers or of new ships . . . No people in the world have made such sacrifices for peace; perhaps, also, no people in the world, not even the Allies, the French, have suffered so much from war.—London Daily Mail.

Searching For Great Treasure

Baku Society May Find Wealth Of Alexander The Great

Search has been begun by the Azerbaijan Archaeological Society for the treasure of Alexander the Great, which is believed to be buried near the village of Andrievka, in the Shumkhin district, about 65 miles from Baku. The archaeologists were led to excavate by the statement of an eighty-year-old resident of Andrievka who declared he is in possession of an ancient map stolen from a Turkish sultan many years ago, showing the exact spot where the treasure is buried.

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enamelled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spout. No danger of steam scalding the hands because the handle securely locks the cover on. If your family use potatoes, you require one of these.

SMP Enamelled POTATO POTS

MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario. "I am now giving you medicine a fair trial and it surely is doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headaches, dizziness, nervousness, pains in my back and across my body. I read letters in the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicines. They must be good when those who take them speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Mrs. B. H. HART, Box 1061, Cornwall, Ontario.

Mrs. Hart wants to help other women and is willing to answer letters from sick women asking about the Vegetable Compound.

W. N. U. 1377

AMENDMENT TO THE BUDGET IS EASILY DEFEATED

Ottawa.—The Progressive amendment to the budget, calling for a downward revision of the tariff, was defeated in the house by 110 to 23, a government majority of 77.

Voting with the government members in the negative were the 11 Conservatives present and 14 Progressives and Independents. The 14 were: Messrs. Kennedy, of Glengarry; McDonald, of Temiskaming; Shaw, West; Calgary; Fred Johnston, Last Mountain; McConica, Battleford; Pritchard, North Wellington; Reed, of Frontenac; Jelliff, of Lethbridge; Sexsmith, of Lennox; Prince Edward Island; Black, of Huron; Neill, of Comox; McBride, of Cariboo; Humphries, of Kootenay; and Findlay, of South Bruce.

The 23 who voted for the amendment comprised 21 Progressives, including Robert Forke, Progressive leader, Hon. T. A. Cregar, and the two Labor members.

As debate on the main budget motion had been the longest in the history of the Canadian Parliament, so debate on the amendment was one of the shortest on record.

Sir Rider Haggard Dead

Celebrated British Author Was Also Expert Agriculturist

London.—Sir H. Rider Haggard, the author, died here May 14.

Sir Henry Rider Haggard was born in Bradbourne, Norfolk, June 22, 1856. He engaged in government service in South Africa, and while a young man became celebrated as a writer of romances and tales of adventure with African backgrounds. From 1882 to 1924, scarcely a year passed without publication of a novel by him.

Although he achieved a world reputation as a writer of fiction, it was known to but few that the real life work of Sir Rider was in the field of practical agriculture, in which he gained the highest reputation among experts.

Condemn Reparation Plan

German Officers Declare It Incompatible of Fulfillment

Berlin.—The National Federation of German officers condemned the Dawes reparation plan as incapable of full fulfillment, and of "serious damage to German industrial life," beside the political gagging and enshaving of the German people.

The convention criticized the government for not sending to the foreign powers a declaration of Germany's war guilt.

The federation opposed the security pact proposed by the government, because "it means not only the sacrifice of our nationals in the ceded territories, but voluntary recognition of the shameful Treaty of Versailles."

Revision of Grain Act

Pool Agency Confers With Canadian Council of Agriculture

Winnipeg.—Directors of the central pooling agency of the provincial wheat pools adjourned their monthly business meeting and received in conference representatives of the Canadian council of agriculture.

Discussions at the meeting centered in drawing up recommendations whereby the present Canada Grain Act could be amended and the present form, under which it has been declared ultra vires, improved.

Canadian Wins Theological Prize

New Haven, Conn.—Prof. W. C. McIntosh, a Canadian and a graduate of McMaster University, Toronto, has been awarded the Bross prize of \$6,000, which is given once in five years by the Lake Forest University of Chicago for the best theological work. Prof. McIntosh is a member of the faculty of Yale Divinity School.

Urge Rural Credits

Ottawa.—A resolution urging the government to bring the legislation at the present session of parliament for the establishment of an adequate rural credit system, was passed by the banking and commerce committee of the House of Commons by a large majority.

French Aviator Killed

Chartres, France.—Lieut. Henri Simon met a spectacular end when his motor plane collapsed while he was performing acrobatic stunts over this city. His plunging machine just missed Chartres famous cathedral and was dashed to fragments in the market square.

W. N. C. 1577

U.S. Would Limit Spread In Grain Quotations

Washington.—Adoption of rules by the grain exchange limiting the spread in daily quotations was recommended by Secretary Jardine as a means of preventing unreasonable fluctuations and manipulation of grain prices. The recommendations were contained in a report on the preliminary investigation by the department of agriculture, under the Grain Futures Act, of the sharp fluctuation in future grain quotations on the Chicago board of trade, beginning in January.

Suggested Relief For Unemployment

Britain Should Co-operate With Dominion For Railroad Orders

London.—That the British government should co-operate with the overseas dominions to assure a regular flow of orders for bridges, steel rails and all kinds of heavy engineering equipment for railroads, in order to relieve the grave unemployment existing in English and Scottish yards, was the proposal made to Premier Stanley Baldwin at a conference with J. T. Drowdale, president of the Amalgamated Engineering Union, which seems likely to be adopted.

The state is ready to give support to any practical scheme for the relief of this unemployment, said Mr. Baldwin, and the idea that the government should co-operate financially with the dominions, while at the same time giving some form of limited subsidy to able traders here in an effort to stimulate empire development, is warmly received.

Saskatchewan Wheat Pool

Big Membership Campaign Is Planned To Commence Shortly

Regina, Sask.—Dwarfing any previous similar efforts, the management of the Saskatchewan wheat pool, immediately the provincial elections are over, will start a province-wide movement to obtain 2,000,000 additional acres and contract. Organization work for the effort has already been started at the head office in Regina. At the same time it will attempt to obtain the necessary percentage of acreage for the coarse grain pool, which will operate for the first time this year. The initial move for coarse grain acreage is the building of the contracts to all wheat pool holders.

Anti-Soviet Chief Ends Life

Denied Release From Prison Throws Himself From Cell Window

Moscow.—Nikolai Krasnov, who was little known as the liberator, General Boris Savinkoff, notorious and Bolshevik leader, has committed suicide by throwing himself from the window of his cell. He was serving a long term on a multitude of charges growing out of his seven years' struggle against the Soviet regime.

His trial, on August 28, 1924, at which there was neither prosecution nor defence, constituted probably the most dramatic case that ever came before the revolutionary war tribunal.

Jelliffe Made Chairman

London.—Viscount Jelliffe, former naval commander and former Governor-General of New Zealand, has accepted the chairmanship of the council of overseas settlement. The council was recently formed under the auspices of the Church of England for the dissemination of information with regard to openings for settlers overseas and for the purpose of looking after the selection and welfare of emigrants.

Will Call Polar Ship "Peary"

Chicago.—Donald B. MacMillan, the Canadian-born leader of the proposed MacMillan Polar expedition, in which an attempt will be made this summer to reach the North Pole by aeroplane, has entered an official request to change the name of his polar ship to Peary, in honor of the discoverer of the North Pole. The vessel is scheduled to leave Boston, June 17.

Fruit Growers Accept Proposition

Toronto, Ont.—The directors of the Associated Growers at a meeting here accepted the proposition from wholesale dealers of the prairie provinces whereby 90 per cent. of the jobbing trade guaranteed full support in distribution of British Columbia fruit over represented by the Associated Growers' own representatives.

Discusses Postal Salaries

Toronto, Ont.—Postmaster-General Hon. Charles Murphy has asked all branches of the postal service to send representatives to Ottawa to meet a sub-committee of the cabinet to discuss a revision of salaries. It has been known here.

Voted For The Budget

J. FRED JOHNSTON, M.P. for Last Mountain, who resigned his position as chief whip of the Progressive party, as a result of voting for the budget in opposition to his leader.

Build New Elevators

Saskatchewan Wheat Pool Has Mapped Out Programme

Regina, Sask.—The Saskatchewan wheat pool has decided to build elevators at the following fifteen points: Balgonie, Indian Head, Dodsland, Dunsmuir, Watrous, Swifts, North Kyle, Bruleville, Disley, Stoughton, Delac, Milkstone, Yellowknife, Grass and Vantage.

At none of these points, it was stated, is there a farm-owned elevator and all have more than 10,000 acres under contract to the pool.

CONTINUE WORK OF ASSISTING ARMY VETERANS

Ottawa.—Some interesting figures on the cost of soldiers' re-establishment have been submitted to the house. Not including the cost of administration, the department last year disbursed \$49,656,179 for pensions and re-establishment of veterans of the Great War. The cost of administration was \$2,185,645, or about 4.8 per cent. of the total disbursement.

In answer to suggestions that the department of soldiers' civil re-establishment should be abolished, Hon. H. S. Beaudet told the house there was no hope that the machinery of the department could soon be dispensed with.

For many years the payment of pensions, Canadian and Imperial, the providing of treatment, the supply of artificial limbs, and all other services handled by the department, must go on. Personally, said Dr. Beaudet, he was not anxious to remain a minister of the department one moment longer than was required by the department.

Senate Vacancies

Government Awaiting Outcome of Proposed Provincial Convention

Ottawa.—The possibility that the proposed inter-provincial conference on senate reform might result in a reduction in the membership of the senate was suggested in the upper chamber as a reason for the delay in filling the seven vacant seats in the senate.

Answering, Rueland Dandridge, government leader, said that his impression was that the government had not filled the vacancies because it was awaiting the outcome of the proposed provincial convention on the senate.

Senator Longhead added that perhaps the approaching general election might have something to do with the delay.

Will Use British Banks

London.—The Daily Telegraph reports that the Valcien intends to make large financial deposits in Great Britain and that there is been competition among the banks to secure this business. Before the war the Valcien banked largely in Germany, and it is said to have suffered much loss through the depreciation of the mark.

Colonial Office in Britain

London.—The Morning Post, dealing with the proposed reorganization of the colonial office, says it doubts if the word "colonial" in connection with the office, really offends the susceptibilities of the overseas dominions.

"This aggrivates about a mere name seems purist and shallow," the Post adds.

Estimates Smaller This Year

Ottawa.—A vote for \$21,500 covering salaries in the department of soldiers' civil re-establishment was passed in the house after considerable discussion. This year's estimate is \$7,250 less than last year's vote.

Canadian Chief Of Staff Sees Danger Of War

Ottawa.—Addressing a military gathering here, General J. H. MacBrien, Canadian chief of staff, said existing peace would not prevent war. "No thinking man can read the daily papers, make an examination of the frontiers in Europe, read of the trade rivalry between the United States and Japan, realize the huge importance placed by commercial countries on control over such strategic positions as the Suez Canal and the Straits of Gibraltar, without coming to the conclusion that, sooner or later, there must be grave danger of war," the general said.

Industrial Disputes Act

Amended Act Passes House of Commons

Ottawa.—With three changes, the bill to amend the Industrial Disputes Investigation Act (commonly known as the Loucheux Act) went through all stages in the house. The bill was made necessary by the decision of the privy council which found the existing I.D.I. Act ultra vires, in that it encroached on provincial jurisdiction. The purpose of the bill, generally speaking, is to limit the application of the act to matters not within the legislative jurisdiction of any province. There is a further provision to take advantage of the provisions of the Dominion act should it so desire.

New Equipment For C.N.R.

President Thornton Says \$18,040,625 Will Be Spent On Improvement

Ottawa.—Sir Henry Thornton, before the railway and shipping committee of the House of Commons, gave the figure from the 1925-1926 budget of the National Railways to be spent upon construction, betterment and new equipment as \$18,040,625. New equipment is he said, to include 500 freight cars for carrying automobiles, five observation-sleeping cars, and five mountain type engines.

Sir Henry did not think the grand total of assets would be increased during the present fiscal year as during the past fiscal year.

Brand's Reply To Germany Cautious

British Foreign Office Received Copy Of Security Pact Proposal

Paris.—Foreign Minister Brand sent to the British foreign office at London, a copy of his reply to Germany, regarding the German security pact proposal. It is understood it is a cautious document, which takes account of the fact that the pact leaves the question of the Polish frontier to future negotiations, and avoids mention of any condition to an acceptance of a proper security plan.

Traffic In Arms

To Exclude Armored Cars and Flame Throwers From Control

Geneva.—The military commission of the League of Nations international conference for the control of traffic in arms and munitions has decided to recommend that armored cars, flame throwers and flame throwers be excluded from control. The fall conference must pass upon the commission's recommendation.

Mennonites For Southern Alberta

Winnipeg.—The Mennonite board at a meeting here decided that a group of Mennonites, from the 136 recently arrived, will be settled in the sugar beet district of Southern Alberta. The meeting was held in the office of the Canada Colonization Association. Many of the newcomers are experienced beet growers. They all had money, and paid their own fares to Canada.

Many Divorces Granted

Ottawa.—Thirty-one divorce bills were handled in their various stages within twenty minutes in the House of Commons recently. A score passed committee stage and were given final reading in the first fifteen minutes. The rest were given second reading and went to the private bills committee.

Col. Dennistoun Resigns

London.—Lieut. Col. Ian Onslow Dennistoun, whose former wife, Dorothy Marie Dennistoun, just a housewife, was convicted in a recent trial in a trial marked by sensational testimony, has resigned his commission in the army. The reason is not given.

Delegation To Russia

London.—The British Labor party has declined to accept the official invitation to send a delegation to Russia to study the possibilities of an improvement in Anglo-Russian trade.

Declares Canada Is Interpreter Of Ideals

President of Toronto University Delivers Address in London

London.—Canada's position as the interpreter of ideals between the two great English-speaking nations, Britain and the United States, featured the address of Sir Robert Falconer, president of the University of Toronto, delivered here at a large gathering presided over by the Lord Mayor of London.

Sir Robert declared it was evident Canada now held an extraordinary position of vantage, compared with even half a century ago. Britain regarded Canada with the pride of a mother over her first-born.

Canada, said the speaker, would perform her function of interpreter between the two nations, not of set purpose, but by simply being true to herself and living her own life. Even more important than that was the function which Canada might perform in interpreting to the United States the character of the British commonwealth.

U.S. Border Officers Increase Outposts

Making Effort to Halt Unlawful Entry Of Aliens

Minot, N.D.—Immigration forces operating along the international boundary line have increased their outposts considerably within the last few days in a determined effort to halt the unlawful entrance of aliens into this country from Canada, according to P. A. Winsor, of Portal, N.D., inspector in charge of patrol, who is in Minot.

Not in many months, according to the official, have there been so many foreigners attempting or planning to make unlawful entrance into this country. However, with additional patrolmen available, and every foot of the border now covered by experienced men, it is believed the situation is well under control.

Wheat Carry Over Smaller

World Supply Is Sufficient Until New Crop Is Marketed

Washington.—Indications of a small world wheat carry over on July 1 were furnished by the department of agriculture. The carry over was estimated at 125,000,000 bushels as compared with 233,000,000 bushels July 1, 1923. This indicates that sufficient wheat is available for the world's needs till the new crop comes upon the market, the department declared.

BRITAIN TAKING MEASURES TO SUPPRESS REDS

London.—The Daily Chronicle says the police are taking strong measures against the Bolsheviks in London. The permits of numerous persons to remain in England have been cancelled and the renewal of others refused, the number thus dealt with mounting into the hundreds.

Quantities of literature of these measures, the paper declares, the Bolshevik bookshop here, where the newspaper Pravda, the Izvestia, and other publications were sold, has been closed, and the official Bolshevik paper in England, the Soviet Union Review, has ceased publication.

The staffs of the Russian commercial establishments are being greatly reduced, says the Chronicle, but it is unaware whether this is due to the police campaign or merely to economy.

Creamery Plant For Bulyea

Moose Jaw Firm Completes Arrangements For Opening Branch

Bulyea, Sask.—Complete arrangements have been made with the management of the Western Creameries, of Moose Jaw, to establish a branch of the firm in Bulyea. A. J. Jones, representative of the creameries, was here last week and documents were signed. The entire issue of stock required for the enterprise was quickly subscribed. A site has been located and inspected and arrangements made to begin work in the very near future. The management expects to have the plant in operation by the first week in July.

Viscount Milner Is Dead

London.—Lord Milner, former secretary of war, who had been ill for some time, died at his residence, St. James Court, near Canterbury. Lord Milner had been suffering with sleep sickness.

FRANCE'S DEBT TO BRITAIN AND U.S. TO BE SETTLED

Paris.—Officials of the French foreign office have intimated that a definite policy will be required to the settlement of France's debt to Britain and the United States had been decided upon.

The present relations between France and Britain are regarded here as about as satisfactory as they could be in a changing world. There has been a wave of approval in England recently, which is not regarded as entirely due to the election of Field Marshal Von Hindenburg as president of Germany, but due to the belief that the entente is essential and requires polishing. Prominent diplomats consider that France is undergoing a phase similar to that of 20 years ago. Responding to the wave of approval, the Marquis de Creve, British ambassador, gave a brilliant reception to President Doumergue at the British embassy, when several Canadians were present.

Second Reading Of Grain Act Postponed

Hon. Arthur Meighen Objected To Hasty At Important Stage

Ottawa.—The bill amending the Canadian Grain Act, which was scheduled to come before the House of Commons, May 13, for second reading, was held over until a later date as the result of objections raised by Right Hon. Arthur Meighen, leader of the Opposition. When Hon. T. A. Low, minister of trade and commerce, undertook to introduce the bill for second reading, Mr. Meighen pointed out that the bill, which was a lengthy one, comprising 55 printed pages, had only been made available that morning and not a single member could possibly have read it.

The second reading was the most important stage and it was not in accordance with customary usage to hurry a bill through at the stage. The prime minister said that the government wished to get the bill before the committee on agriculture, but if there was objection to proceeding at once, the bill would be held over, which was agreed.

Late President Harding Memorial

Will Be Unveiled At Vancouver on September 17

Vancouver.—The fund to build a memorial to the late President Woodrow Wilson in Stanley Park, being collected by Kiwanis Clubs throughout Canada and the United States, has been over-subscribed. It was learned here.

The sum of \$35,000 was the objective, and this amount is now in the hands of the International Kiwanis executive at Chicago, and plans are progressing rapidly on the subject. It is planned to unveil the memorial next September, when the International Kiwanis convention will be held in Vancouver, September 17 being the date set for the ceremony.

Business For Merchant Marine

Urges Policy to Secure an Increased Chilled Meat Trade

Ottawa.—In the course of the examination of the annual report for the Canadian Government Merchant Marine by the House of Commons committee on railways and shipping, Sir Henry Drayton strongly urged the merchant marine management to undertake a policy to secure an increased chilled meat trade. New Zealand, he said, was carrying to Britain at the same rate used by Canadian lines because they were contracting for mutton loadings.

Funding French War Debt

Paris.—The first active negotiations for funding the French war debt to the United States will begin within 15 days.

The form in which the negotiations will be conducted is undecided, but it is indicated they will be directed through established diplomatic channels, rather than by a special French envoy to the United States.

Famine Threatens Parts of Russia

Manth, Manchuria.—With prospects of a famine in Western and Southern Russia, owing to the crop failure, Moscow officials are allowing Manchurian wheat to enter the Soviet duty free. A telegram received here from the Russian Government says they are preparing to purchase for cash large quantities of wheat.

WORLD HAPPENINGS BRIEFLY TOLD

Two hundred cases of leprosy have been discovered among street peddlers at Rostov, Russia. The medical authorities are isolating the victims.

A rumor that Finance Minister Callaghan and the Bank of France authorities were discussing further inflation of the currency was denied by the ministry of finance.

The Japanese Government has contributed about \$1,000 to aid in the proposed aeroplane flight to Europe this summer, which will be directed by the Asahi Shimbun, a newspaper.

Fifty-four surviving members of the original 299 in the Brigade of Montreal Garrison Artillery who left Montreal 10 years ago to join the Northwest Field Force in the quelling of the Red Rebellion, held a reunion.

A resolution urging the government to bring down legislation at the present session of parliament for the establishment of an adequate rural credit system, was passed by the banking and commerce committee.

The first consignment of mail from England to San Francisco by a par- ad air route, left Southampton aboard the steamship Aquitania, to be taken from New York to San Francisco by aeroplane.

Taking action on a largely signed petition of stockholders, the Vancouver city council rescinded the Early Closing Bylaw and groceries may now be purchased in Vancouver at any hour of the day or night.

The Prince of Wales, it is officially announced, has definitely accepted the invitation to visit Chile upon the termination of his visit to Argentina. It is expected the Prince will arrive in Chile about August 20 by special from Buenos Aires.

Capt. Donald B. MacMillan has purchased for his forthcoming Arctic expedition the steam yacht Rowena, owned by Morill Goddard, New York editor and yachtsman. Capt. G. F. Steele, of Rosbury, will command the Rowena on the voyage to northern waters.

Museum Opened At Munich

Said To Be Largest Of Its Kind In the World

Munich was on Feb. 5 with her streets again bedagged and thronged with visitors from all parts of the country to witness the official opening of the Deutsche museum, construction of which was begun before the war. The museum building is said to be the largest of its kind in the world. Several members of the cabinet attended the ceremony, Chancellor Luther coming from Berlin by aeroplane.

Watch Your Daughter

—Wolfe's Photo Studio
Chatham, Ont.—I gave Dr. Pierce's Favorite Prescription to my daughter and it did her a world of good. She had always been delicate, had functional disturbances and was very nervous and weak. She also had a lot of trouble with her stomach. But after I began giving her the "Favorite Prescription" she did not suffer, her nerves were good, she began to get stronger and finally developed into a healthy, robust girl. And what "Favorite Prescription" did for my daughter, it will do for other girls if they will only try it.—Mrs. Fred Crounman, 30 Adelaide St. N. All dealers.
This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you wish a trial package of the tablets.

W. N. U. 1577

Death of Veteran Statesman

Right Hon. W. P. Massey, Premier of New Zealand, whose death occurred recently.

No Cheer For the Reds

Moscow Sees No Encouragement in Election of Von Hindenburg

Upon taking second thought, much of Europe seems to be arriving at the conclusion that there is less reason to be seriously apprehensive because of the election of von Hindenburg than at first appeared. There is a growing recognition that, after all, the president of the German republic is not the person who decides its policies, and that the cabinet and the Reichstag really run the country. Besides this, the moderate tone of Hindenburg's utterances up to this time and the intimation that he stands by the Dawes plan has had a rather reassuring effect on many who at first assumed that the outcome of the national election meant the inauguration of an era of reaction and militarism. A tendency to suspend judgment, hope for the best and await the outcome is distinctly on the increase. Moscow alone is unable to see anything but blackness in the prospect. It is quite sure, and justifiably so, that the election of Hindenburg contains no gleam of cheer for the bolsheviks.—Detroit Free Press.

MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. L. M. Brown, Walton, N.S., says:—"I cannot recommend Baby's Own Tablets too highly. I have found them invaluable for the ailments of little ones." Mrs. Brown's testimony is the same as that of thousands of other mothers who have used the Tablets. To use them once is a sure guarantee that they will always be kept in the home as long as there are babies or young children to be cared for. The Tablets are a laxative—mild but thorough in action—which never fail to regulate the stomach and bowels; relieve constipation and indigestion; break up colds and simple fevers and make the dyspeptic feeding period easy. In fact they banish all the minor ills from which little ones suffer. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

France Building Fast Plane

Expect Machine to Make Non-Stop Trip to New York

There is being built secretly in Paris a large hydroplane, with which it is hoped to fly without stopping, the 5,000 miles between Paris and New York.

This machine is being constructed on the orders of the French navy, and according to its own plans. It will have a motor of 500 horsepower, and will carry 6000 litres of gasoline. The first trials will take place in June, and a flight will be attempted during the summer.

French aviation headquarters admit the machine is being made, but refuse to reveal any details beyond those given above.

Woman Scientist Honored

Elected Member of U.S. National Academy of Science

For the first time in its history the National Academy of Sciences, the leading scientific body of the United States, elected a woman to its membership. She is Dr. Florence Rena Sabin, a biologist and professor of histology at the Johns Hopkins Medical School, Baltimore.

Blood is the subject of Dr. Sabin's researches that have brought her this high honor. Instead of studying cells of the blood after they have been killed, she has succeeded in keeping blood alive outside the body for three to four hours and determining its reactions in this way.

A portable piano but three feet long and 7½ inches wide is manufactured in England.

More men than women are color blind.

Canada Leads the Way

Is Opening Doors of Britain For Import of All Cattle

Canada, having gained in 1922 an entry into the United Kingdom for her store cattle, has been insistent for the wider opening of the door to include pedigree stock. It can scarcely be imagined that the old-established herds of Scotland and England will draw an infusion of blood from the folds of the herds of younger Canada; what is more apparent in the insatiable of the western dominion is to drive the thin edge of the wedge for a wide open door at all the ports of Britain for the landing of all classes of cattle—store, fat and pedigree. Pressure in that direction is not without its bearing on the cattle future of South Africa or Rhodesia. It would mean that when the day arrives for the export of store cattle from these shores they would, if accompanied by the necessary evidence of clean health, have admittance to the live cattle markets of Britain.—Bulawayo Chronicle.

Painful Sprains, Bruises, Restored By Nerviline

There is soothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use Nerviline. It is a sure remedy, restores the body to its normal condition, restores the blood to its normal condition. Get a large 25-cent bottle from your dealer today.

Girl's Suspender Skirt and Peasant Blouse

The new jumper or suspender skirt is one of the most youthful and practical fashions of the present mode. The dress shown here, No. 1054, consists of the suspender skirt and a peasant blouse. The skirt has an inverted pleat at either side and diagonally slit pockets. The shoulder straps are cut in one with the skirt, and form deep oval neck opening and large armholes. The blouse has long, flared sleeves gathered into wristbands and the ever youthful Peter Pan collar. Planned is a favorite material for the skirt, and either white or colored voile or printed silk for the blouse. Pattern No. 1054 comes in sizes 8 to 14 years, and requires 2½ yards of 32 or 35-inch material for blouse and 2½ yards for skirt in the 10-year size.

Sugar Beet Acreage

Well over 6,000 acres have been prepared for the growing of sugar beets in the area tributary to the new beet sugar factory which is being erected at Raymond, Alberta. Work is now being started on the factory which will be rushed to completion.

Women now outnumber men on the continent of Europe by 25,000,000, according to the latest statistics.

Cuticura Promotes Permanent Hair Health

Shampoos with Cuticura Soap, with light applications of Cuticura ointment when necessary, tend to free the scalp of dandruff and minor eruptions, and to establish a permanent condition of hair health.

Sample Box Free by Mail. Address: Cuticura Department, "Cuticura, Ltd., Montreal," P.O. Box 100, Montreal 25, Canada.

Cuticura Shaving Stick 25c.

Offer Scholarships

Manitoba Department of Education to Aid Boys' and Girls' Clubs of Province

The Manitoba department of education is offering scholarships to members of winning demonstration teams of Manitoba Boys' and Girls' Clubs according to announcement made by Hon. C. R. Cannon, minister of education.

Each member of the winning girls' team will be awarded a scholarship, which entitles her to attend a six-week term of the home economics course for high school girls at the Manitoba Agricultural College, during July and August. The scholarship covers tuition, board and room for the period. Members of the successful boys' team will receive a scholarship worth \$52. This award may be offered in part payment for any course at the Agricultural College for the winter.

The provincial competition this year will be held during the third week of August. Demonstrations will be given on foods, clothing, health, twine manufacturing, bird life, art, flower, paint, horticulture and silos.

HER NERVES SO BAD SHE COULD NOT SLEEP

Mrs. Grace Kitchen, St. George, Ont., writes:—"After having a severe attack of pneumonia I was left in a weak and run-down condition. My nerves were so bad I could not sleep nights, and in the day time I had terrible 'fainting spells,' caused by my heart being weak." Finally I got so bad I had to take to my bed for weeks at a time, but one day I read about

MILBURN'S HEART AND NERVE PILLS

so decided to try them. After taking one box I felt a slight improvement. I have now taken five boxes, and have gained 35 pounds in weight. I am now more than able to do all my own housework as well as considerable outside work. I cannot recommend Milburn's H. & N. Pills too highly for those suffering as I did."

Manitoba Industrial Survey

Proposed Survey of Province May Be Carried On Co-operatively

Tentative plans have been agreed on co-operation between the Manitoba Government and the Winnipeg committee on the proposed industrial survey of the province. It is understood complete understanding has been reached and a basis of co-operation resolved and that the government will grant \$10,000 to the general fund raised for the survey.

More Life Insurance Written Ordinary life insurance written in Canada shows a decided increase this year so far, as compared with that of the corresponding period in 1924. The increase in March over February was from \$25,000,000 to over \$35,000,000.

Nation-wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is at the world's most efficient remedies for sore throat, lumbago and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can be taken internally.

It is customary among certain sects of Alchemists to bury the dead with the bottles of medicine used during their last illness.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Some poets soar upward after the infinite, while others remain on earth and satisfy their longing for pork and beans.

Milnard's Liniment for Backache

SUNDAY SCHOOL LESSON

MAY 24

SAUL BEGINS HIS GREAT CAREER

Golden Text: I determined not to have anything among you, save Jesus Christ, and Him crucified. 1. Corinthians 2:2.

Lesson: Acts 9:20-27.

Devotional Reading: Joshua 1:1-9.

The Text Explained and Illumined I. Paul Proclaims Christ at Damascus, verses 20-22. Upon his return from Arabia (see "The Historical Background"), Paul joined the circle of disciples at Damascus and proclaimed Jesus to be the Son of God. His bold preaching greatly amazed the Jewish authorities, who knew what his course had been at Jerusalem and what his purpose had been in coming to Damascus. But Paul's power as a preacher for Christ increased, and he confounded the Jews, proving that this is the Christ. "The somewhat unusual Greek word for proving means literally putting together, and so is used for the putting together of arguments."

II. Paul's Escape From His Enemies at Damascus, verses 23-25. The devoted Jews plotted to kill Paul, and this became known to him. Learning that the Jews were keeping watch for him night and day, he escaped by the wall of a house built either against the wall or top of the wall. In some- what of a fashion the spies escaped from Jericho, Joshua 2:15.

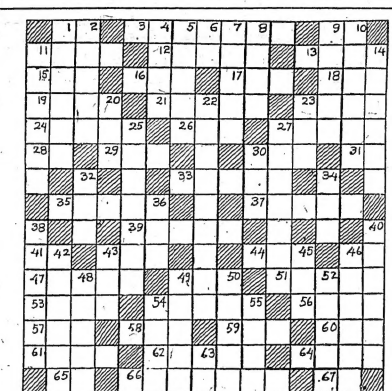

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent frequent condition from becoming chronic and saves hours of awful suffering.

Saskatchewan Income Tax

Saskatchewan pays less income tax than those of the other two prairie provinces. In answer to a question in the House of Commons, it was stated that the total amount collected in federal income tax in the fiscal year just ended, were: Manitoba, \$3,417,689; Saskatchewan, \$3,722,028; Alberta, \$1,163,911.

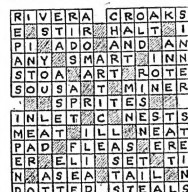

Perfumed butter is served in Paris at the most fashionable restaurants.

Women's Institute Convention

The annual convention of the Alberta Women's Institutes will be held at the University in Edmonton on May 26, 27, 28 and 29. Conference of the advisory board will be held Wednesday morning, May 26th, and in the afternoon the advisory board will meet the constituency convenors. Mrs. J. N. Beaubier of Champion, is President of the Convention. The program for the convention includes several prominent speakers.

A new oil refinery, the third to be established in Alberta, will be opened at Edmonton shortly by the Alberta Refineries, Ltd.

Fourth Annual Tour To The Pacific Coast

Special Train from Winnipeg via Canadian National Railways. Entertainment Provided for all Various Points of Interest En Route

Personally Conducted

Personally conducted tours offer the best opportunity for familiarizing oneself with the country traversed. This applies to our own country as well as to the older settled countries of Europe. Canadian National Railways has, for many years, commencing immediately after the close of school for the summer holidays, conducted special parties to the Pacific Coast via Prince Rupert. The tour of the year which will be the fourth will again commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and radio observation car, will leave July 6th. After stopping at various points of interest, the train will arrive at Prince Rupert on July 11th. At this latter point, the party will embark on a palatial steamship for a cruise of 550 miles through the famous 'Inside Passage' to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria, may have their tickets read 'Victoria' as their destination without any additional cost.

This tour is an outing that appeals strongly to teachers as well to professional men, and business men and women.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour, including the cost, choice of routes returning, etc.

Langford U.F.A. Sports Day Wednesday June 3

The Langford U.F.A. will hold their annual sports day on Wednesday, June 3. A good program of events is being arranged and a day of real enjoyment is assured those who attend. See posters for full particulars.

M. D. of COLLHOLME

A meeting of the Council of the Municipal District of Collholme was held last Saturday in Collholme School.

The S.W. 1/4 of 5-26-9 w 4 was re-leased to O. D. Harrington for this year for grazing purposes at a rental equal to the current year's taxes.

That Hay Permit be granted to M. Colquhoun covering the N.W. 34-28-9 w 4 for this year at a rental of \$5

The mill rate for the following School Districts was set as follows: Bell Plains, 4; Clarkson, 6; Collholme, 5; Crocus Plains, 6; Dobson, 9; Heathdale, 8; Keystone, 4; Laughlin, 7; Lexington, 8; Mapleline, 6; Myrtle, 5; Niles, 3; Pepton, 7; Rainbow, 8; Rearville, 9; Stimson, 9; Swan, 7.

That priority over Municipal Seed Liens be granted Messrs. Osler Hammond and Nanton covering one third share of crop grown on S. 12-27-8, w 4th, plus sufficient of the crop to cover amount advanced for the seed for the current year.

That the request of the Hudson's Bay Co. to have the Municipal Seed Grain Lien against the W. 1/2 8-28-7, w 4, re-leased, be refused, and that re-lease of said lien be only obtained on payment of the account in full.

The sum of \$100 per Division was appropriated for road work for the current year.

A number of parcels of land were placed on the Wild Lands Tax Assessment Roll.

The Council adjourned to meet again on June 27.

Poor Germination in Oats

Attention of the Provincial Department of Agriculture has been drawn to the fact that considerable wheat and oats in northern parts of Alberta are showing poor germination. It is pointed out to farmers that no seed should be sown unless the germinating qualities are known. A pound sample of the seed should be sent to the Dominion Seed Branch, Calgary, for a germination and purity test. The test costs only 50 cents per sample.

New Pools Organizing

The three new provincial pools for the co-operative marketing of dairy, livestock and poultry products, are now actively organizing. For the period of the membership drive, which is from June 8 to 28, over 500 meetings have been planned throughout the province.

A. McAlister, Secretary

CROP REPORT

Issued by Department of Agriculture Government of Alberta, Edmonton Saturday, May 16

Seeding of wheat is practically completed throughout the province at this date, save in the territory immediately tributary to Edmonton, which appears to be somewhat later, and where from 50 to 75 per cent. of wheat is in the ground. A few days more of the present favorable weather will see the completion of wheat seeding in this district.

Reports received indicate that the increase in wheat acreage over the province will probably be 10 per cent. Delay in spring operations due to backward weather in the more central and northern districts has led to considerable area of wheat being seeded on stubble a larger area than usual being put in this way.

Seeding of the coarse grains is well underway with from 30 to 50 per cent. completed.

The weather generally speaking during the past fortnight has been cool and backward, with frosts in certain localities and growth consequently has been slow. In some of the southern districts early sown wheat is up from two to four inches. Warmer weather has prevailed during the past few days, but there has been no precipitation to speak of in any locality since last report. Moisture conditions continue satisfactory, however, there being sufficient in the soil to give good germination.

WANTED-To purchase a Wagon or Democrat. T. C. Thompson, Chinook, Alta.

Pasture is improving rapidly, and stock is picking up in condition. A good deal of water is still lying in the low places in nearly every district in the province. Sloughs which have been dry for some years past are well filled.

In the southern districts there has been a very large increase in the area given over to sweet clover corn and alfalfa. In the Leithbridge district, planting of sugar beets is about completed. Percentage of winter killed winter wheat and rye is small.

No serious outbreak of grasshoppers is anticipated this season. Farmers, however, are urged to keep a sharp look-out for any outbreaks that may occur and report same to the Department at Edmonton at once.

Many Join Wheat Pool

There are now 32,000 farmers in Alberta Wheat Pool, according to a statement made by a director of the pool last week.

Remember the Agricultural Society meeting next Saturday evening. This is an important meeting and every one interested is requested to attend.

Robert Smith made a business trip to Calgary last week.

Mr. and Mrs. F. Johnson, who have been visiting in Calgary, returned on Wednesday.
